WIRELESS TECHNOLOGY FOR CARE HOMES

KEEPING EVERYONE CONNECTED

“WE ARE RECRUITING NOW.” Signs such as these are common outside many Care Homes. Trying to manage a limited number of staff with an ever-increasing workload is TOUGH.

Keeping in contact with your staff is imperative in a Health Care setting. Within a busy Care Home, reliable and instant communications are essential to resolve issues quickly, allowing staff to talk to the Management and to each other at the touch of a button.

INSTANT, RELIABLE COMMUNICATIONS

When using the new Cotel SiteMaster system, your staff will be able to have immediate contact with each other.

Whatever the situation, you can get through to the right people, easing the workload, improving teamwork and allowing your staff to “check in” with one another when it matters most.

Cotel provides a wide range of rental options including all maintenance and servicing within the price.

Address: Cotel (UK) Rental, Pool Business Park, Dudnance Lane, Redruth, TR15 3QW

Free-call Customer Care: 08000 960 970

ENSURING THE SAFETY OF YOUR STAFF & RESIDENTS

Communicating with a Cotel SiteMaster system enables staff to call for immediate assistance, either for a resident requiring additional support or for the staff themselves requiring help.

The Cotel SiteMaster system has proven to maximise the efficiency of the available staff and to be an invaluable Management tool in many Care Home environments.

A SOLUTION THAT WORKS FOR YOU

The Cotel solution is very flexible and can be easily configured to meet the Management's working procedures.

A series of audio accessories are available along with numerous channel options, making the Cotel solution adaptable to your working environment.

For more information, please get in touch or visit our website. (details below)
